

DIESEL DIRECT®

Don't Get Caught Without the Fuel You Need to Survive an Extended Period of Time!

Business Continuity and Protection Programs

Supply

Where you need it, when you need it

Delivery

Our staff & technology are driven to meet our customer needs

Management

Our managed solutions and customized data services help our customers manage their fleet

Natural disasters like hurricanes, earthquakes, and winter events can cause electrical outages, and limited access to fuel for a longer period of time than expected.

Diesel Direct is offering our customers a new program to help manage your business continuity. Based on the protection program you choose, you will have a plan in place to manage your fuel needs during a weather emergency.

Protection Plans

Silver Protection Program

Provides a level of support beyond the regular on-site fueling service, behind Platinum and Gold customers and ahead of any other non-contracted customer

- Schedule fueling based on agreed minimum fuel level
- Perform pre-event tank top-off

Gold Protection Program

Provides the second highest level of priority of service for fueling

- Participate in disaster recovery testing
- Recommend and implement an additives strategy to prolong tank life
- Perform forensics services on fuel in the tanks as needed
- Schedule fueling based on agreed minimum fuel level
- Perform pre-event tank top-offs

Platinum Protection Program

Provides the highest level of priority of service for fueling

- Participate in disaster recovery testing
- Recommend and implement an additives strategy to prolong tank life
- Perform forensics services on fuel in the tanks as needed
- Configure and monitor all tanks with a fuel monitor device
- Schedule fueling based on agreed minimum fuel level
- Perform pre-event tank top-offs, top of the list priority

**Fees for all programs are not inclusive of any fuel charges, service charges, taxes, and extensive forensic tests*
