

Diesel Direct's proprietary formula is designed to provide contamination reducing properties to help protect diesel fuel injectors and the entire fuel delivery system.

Product Benefits:

- + When used consistently, helps to clean and maintain the cleanliness of high pressure fuel injectors
- + Effective in all diesel powered equipment and is engineered to support the use of biodiesel in all ultra-low sulfur fuels
- + Helps prevent corrosion
- + Can extend filter life by reducing soot and sludge formation
- + Helps disperse water from the fuel system, which can help extend the life of fuel filters, fuel injection pumps and fuel injectors
- + Helps provide thermal and oxidative stability
- + Can reduce exhaust emissions

RECOMMENDED USAGE:

FOR BULK TANK TREATMENT: 1 gallon of Pure Edge® treats 2,500 gallons of fuel for cleanup. 1 gallon of Pure Edge® to 3,000-3,500 gallons to maintain cleanliness.

Typical Properties

Appearance	Clear, dark amber
Specific Gravity	0.9114 (15.6°C)
Density	7.59 lbs/gal
Flash Point	140°F
Pour Point	< -50°C
Viscosity	6.38 @40°C; 112.91 @-20°F
