

**DIESEL DIRECT IS  
THE NATION'S  
LARGEST ON-SITE  
FUELING COMPANY  
FOR A REASON**

*(well, actually three)*

# **SUPPLY, DELIVERY AND MANAGEMENT.**

## **Eliminate delays and wasted time at fuel islands.**

With Diesel Direct's on-site mobile fueling services, your drivers start their day fueled and ready to make deliveries. As the nation's largest on-site fueling company, we make it easy for you to eliminate all that time spent waiting in line at fuel islands. We fuel tens of thousands of tanks every day and operate in 46 states. We fuel all types of diesel equipment including fleets, vessels, locomotives, power plants, generators, tanks, agricultural equipment and construction vehicles... If it has a fuel tank, we can fill it.

## **Improve drive time and downtime with Diesel Direct.**

You'll find the savings in labor is substantial when you opt to streamline fuel delivery and eliminate driver downtime at fuel islands, plus reduce expenses with the delivery of non-taxable off-road fuel. Diesel Direct offers a full suite of premium diesel fuel and fuel products and the highest-quality fuel at competitive prices. All transactions are weights and measured certified and every truck in the fleet is equipped with computerized meters and handhelds – guaranteeing accurate metering and recording.

**Reliable delivery on-site and on your own schedule.**

*Our trucks carry both on- and off-road fuel, so you get the fuel you need, delivered where you want, when you need it. Delivery is tailored to your equipment needs, seasonally adjusted, and can be supplemented by on-site fuel supplies (such as tanks) for fewer visits. Plus, we can deliver in alternating service windows that adjust as your business flow changes. We even have a fleet specifically designed to handle Diesel Exhaust Fluid. Here, every drop of fuel is dispensed with the highest-quality customer service.*

**Centralized billing, competitive prices, real cost-management and reliable account management.**

Our investments in innovation and technology continue to drive the industry forward with an entirely new framework for measuring cost management. Our approach is scalable, flexible and transparent. The data-driven solution captures and manages your fuel consumption, refueling plan, billing and all the records that go along with it. This kind of fuel intelligence enables us to easily customize delivery service around your specific needs and makes every gallon easy to track. You reap all the benefits which include everything from increased productivity to greater control of your fuel management costs.

In addition, our drivers are highly-trained, experienced and certified. Combine that with our network of dedicated partners and it's easy to see why we are relied on coast-to-coast for on-site fuel delivery. We service local, regional and national companies.

Diesel Direct's account and regional managers partner with you for long-term success – it's a relationship with someone you know and trust. You'll find our account managers communicate with you on a regular basis to ensure all your needs are met. The local branch managers train and manage our drivers. They partner with your delivery-site point person for safe and reliable delivery. Plus, you can rest assured knowing every one of our drivers meets all certification requirements. You can rely on them to be there for assistance 24/7 – in every aspect of your fuel delivery. The bottom line: we exceed customer expectations every day.
