

FUELLOC[®]

by **DIESEL DIRECT**[®]

FUELLOC MAKES FUEL MANAGEMENT SIMPLE, STREAMLINED, AND SECURE

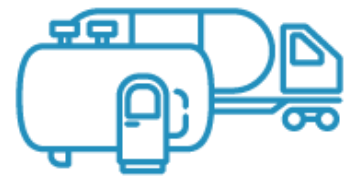

Security

Fuel allocation is under lock & key

Inventory Control

Every gallon is tracked

Versatility

Compatible with dispensers, fuel islands, & fuel storage tanks

Easy Installation & Around the Clock Coverage

System is taken care of leaving you completely worry free

Real-Time Data & Simple User Management

View dashboards for all FUELLOC and fueling activity

Long-Lasting Solution

Built for permanent use

FUELLOC uses a tried and true barcode system that is sending shock waves through the transportation industry. Our secret? It simply just works! The sleek, yet highly reliable technology is easy to install and manage.

Security

FUELLOC secures the fueling process and ensures only authorized vehicles are dispensed fuel. All assets and equipment are tied to fuel type to provide correct fueling. FUELLOC has an optional numeric keypad for driver pin and/or mileage verification.

Inventory Control

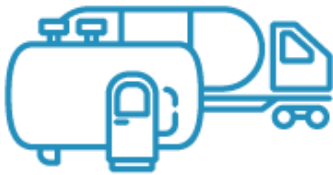

Access to real-time data reflecting accurate tracking of gallons flowing from the tank or dispenser. FUELLOC reads pulses and fluid meters to gather volumes consumed. It then sends heartbeats with transaction and health data to our cloud based back office database. Every gallon is accounted for and tracked!

Versatility

FUELLOC can be used for a wide range of sizes and fueling capabilities. Anything that is liquid can be managed through our system. A variety of products include:

- On & off road diesel
- Gasoline
- Diesel Exhaust Fluid
- Bio Blends
- Propane
- Heating Oil

Easy Installation & Around the Clock Coverage

FUELLOC's inexpensive solution, quick installation process, and straightforward system provides easy user management. We don't just install the product and disappear - we are responsible for the ongoing performance of the system. There is no need to manage it yourself because it is completely in our hands. Our team of dedicated technicians are available 24X7 to provide service support.

Real-Time Data Management & Simple User Management

FUELLOC customers can access a state-of-the-art cloud based platform called Fuel Intelligence. FUELLOC and fueling activity are integrated into one convenient place. Through this portal, you can add and change attributes of your assets, such as asset names and authorization to receive fuel. Customized reporting, detailed reports on fuelings, invoices, and IFTA reports are also available.

Long-Lasting Solution

FUELLOC's modular design is durable and dependable. The flexibility of the design offers benefits such as user replaceable parts and the ability to update certain aspects of the software without the need to replace the whole system. In addition, the dispensing technology has a weather resistant aluminum construction, so it can withstand extreme weather.

FUELLOC PROVIDES REAL-TIME FUEL MANAGEMENT, MONITORING, AND INVENTORY CONTROL

FUELLOC is an enhanced fuel management and integration system for tanks, dispensers and fuel consignment solutions.

- Fully managed solution
- Patent pending technology
- Allows any asset's fuel to be tracked
